ABOUT US

FutureGate Technologies Pvt. Ltd. is a Delhi based leading IT products and services provider company. We provide end-point and enterprise technology products and services to BPOs, Telecom Operators, Services Providers, Government and Enterprise Customers. With our extensive technical strength and manpower, we execute large System Integration projects in IT and Telecom. Our key strengths include Design, Implementation and Management of Wired and Wireless Access Networks, Platform Solutions, Data Centre Solutions and Infrastructure Management Services. Our Infrastructure Management Service offering includes Remote Infrastructure Management, Security Management, Connectivity Solutions, Onsite Support and Help Desk support. You can take the help of our expertise in solution specification finalization according to your requirements, country wide installation and make use of our post sales support. Whether you are a small and medium enterprise or a large corporate house or any MNC with dispersed nationwide networks, we understand that you require a high level of support at both pre-sales and post-sales levels which you can obtain through our certified engineers. You can be assured of a quality work and branded products. At FutureGate, we have envisioned a goal of becoming a major player and winning assignments from various corporate and government organizations. We are a team of hard-core professionals who are on the lookout for challenges with experience in working for various large corporate and multinational organizations.

Kindly call or email us for your any IT requirements. We are happy to serve you upto 100% of your satisfaction.
